

## Welcome to your CT-11T Vario Clip System Trial Pack

Ideal for seatbacks, bases and heavy wall panels. VS-M1 Vario self tapping male clip has variable clipping depth and is perfect for high strength shear applications requiring frequent handling.

The trial pack includes clips, product and installation information, an install tool plus free samples of PC-M2H clips.

Does not include all installation tools and parts. Please order the CT-06T Introductory Kit if you require all installation tools.
